IT CONTROL CAN BE MADE EASIER ...

Anyone who wants to be honest about it will agree that those \$200 billion budget deficits are the result of Congressional log rolling by which means the members look at items that appeal especially to their own states or districts and when they communicate with their constituents they can dramatically heat their breasts and boast about what they did for the folks at home. Unfortunately the average Congressman or Senator has tunnel vision on matters of fiscal responsibility. Federal funds back home and the overall National Good & Welfare make no never mind.

There has been so much kichis around Washington for many years whose time surely has come. That is to enable the President to go down through appropriation bills and weed (CONT. ON PAGE 15A)

Fed Cattle Prices Mixed, Hogs Lower At Markets Monday

Market supplies of slaughter cattle were somewhat higher Monday and trade at the major markets was very uneven to the face of last week's heavy marketings and slaughter, all eyes were on the beef trade awaiting developments. Slaughter steers and heifers for the most part moved mostly sideways, with ups and downs largely a matter of picky attitudes on the part of the buyers. Slaughter cows and bulls at these particular markets were little changed for the most part.

Slaughter hogs met rough markets at all points and decline of \$1 to \$2 were in effect at most of the markets. Price trends, quotations on choice and prime steers and heifers and the mixed good and choice grades and good to choice Holstein steers and U.S. 1-3 hogs scaled 200 to 250 pounds included:

OMAHA fed cattle fully steady. Steers \$59 to \$62.25 and \$65.50 to \$68.50. Holsteins \$58 to \$64.50. Heifers \$57 to \$59.50 and \$66 to \$68. Hogs mostly \$2 lower at \$42 to \$45.50. SIOUX CITY fed steers steady and heifers steady to 50 cents lower. Steers \$58.50 to \$61.15 and \$67 to \$69.50. Holsteins \$52 to \$58. Heifers \$50 to \$58.25 and \$54.50 to \$57. Hogs \$1.25 to \$2 lower at \$42.50 to \$45.25.

SIOUX FALLS fed cattle weak to 50 cents, spots 75 cents lower. Steers \$58 to \$60.50 and \$67 to \$69. Holsteins \$52 to \$54.50. Heifers \$57 to \$58.50 and \$54.50 to \$57. Hogs \$1.50 to \$1.75 lower at \$41 to \$43. ST. PAUL steers and heifers steady to firm and Holstein steers steady to 50 cents higher. Steers \$58 to \$59.50 and \$65.50 to \$68. Holsteins \$52 to \$58. Heifers \$50 to \$58.50 and \$54.50 to \$57. Hogs \$1 to \$1.50 lower at \$42 to \$45.50.

KANSAS CITY high choice and prime steers steady to 50 cents higher and average steady to 50 cents higher. Steers \$58 to \$60.50 and \$67 to \$69. Holsteins \$52 to \$54.50. Heifers \$57 to \$58.50 and \$54.50 to \$57. Hogs \$1.50 to \$1.75 lower at \$41 to \$43.

MINNEAPOLIS high choice and prime steers steady to 50 cents higher and average steady to 50 cents higher. Steers \$58 to \$60.50 and \$67 to \$69. Holsteins \$52 to \$54.50. Heifers \$57 to \$58.50 and \$54.50 to \$57. Hogs \$1.50 to \$1.75 lower at \$41 to \$43.

ST. LOUIS high choice and prime steers steady to 50 cents higher and average steady to 50 cents higher. Steers \$58 to \$60.50 and \$67 to \$69. Holsteins \$52 to \$54.50. Heifers \$57 to \$58.50 and \$54.50 to \$57. Hogs \$1.50 to \$1.75 lower at \$41 to \$43.

CHICAGO high choice and prime steers steady to 50 cents higher and average steady to 50 cents higher. Steers \$58 to \$60.50 and \$67 to \$69. Holsteins \$52 to \$54.50. Heifers \$57 to \$58.50 and \$54.50 to \$57. Hogs \$1.50 to \$1.75 lower at \$41 to \$43.

Senate Approves Drought Feed On Damaged Grains

Washington - The Senate approved legislation Thursday by Senator Lloyd Bentsen requiring the Secretary of Agriculture to set damaged grain at reduced rates to drought-stricken ranchers. The Bentsen bill was approved unanimously by the Senate as an amendment to the Dairy and Tobacco Adjustment Act of 1983.

The West Texas ranch country has been hit as hard as any part of this state. (CONT. ON PAGE 17A)

Cattlemen Lose In Dairy Bill Vote

Last week the Senate passed the proposed new dairy price support bill in substantially the same form it was passed by the Senate and House Agriculture Committees. In effect, the bill would cut price supports on milk by 20 cents per hundred from \$18.10 to \$12.80 retroactive to Oct. 1. Dairyman, who agree to reduce milk production from 10% to 20% for a period of 15 months, would be paid \$10 per hundred for milk not produced. Diversion payments are slated to begin as soon as USDA can draw up regulations and not later than Jan. 1, 1984.

About the only thing of importance that the beef cattle industry obtained on this version of the legislation was that the Secretary of Agriculture has discretionary power to schedule contracts with milk producers taking into consideration the impact of the milk program on the red meat industry.

Beef producers have been alarmed at the possibility that as dairyman cut low producing cows from their herds there would be somewhere between 500,000 to one million slaughter cows thrown on the market. This would further disrupt the beef and cow markets, which are already under heavy pressure nationwide. Just a couple of weeks back the price of ground beef and fore-quarter cuts of beef were reported at the lowest points in four or five years in a nationwide survey. The red meat industry had tried to get changes in the dairy price legislation which would have softened this kind of blow to the red meat producers. However, Congressmen who have been riled over the high costs of agricultural programs this year gave these pleas little attention.

Cattlemen Launch Cattle, Beef Research Program, Texas Development Bonds for Farmers, Ranchers Business in Place

Deer - A new marketing research program - designed to improve the cattle and beef marketing system - was announced today by the National Cattlemen's Assn.

The research, supported by contributions for Cooper Animal Health Products, will result in methods to determine beef and cattle values more accurately, said W. J. (Dub) Woldrip, NCA president. It also should lead to improvements in the market reporting system through which these values are communicated.

Specific grants to research institutions will be decided upon by the National Cattlemen's Foundation, Inc. (NCFI), a non-profit research and education corporation associated with NCA.

Support for the new program was pledged by J. L. (Jim) Macon, national sales manager for Cooper Animal Health, a national associate member of NCA. During a recent visit to NCA headquarters, Macon presented a "big-size" check facsimile to the foundation, as a token of actual payment to be made after Oct. 31.

"To support cattlemen and their research foundation in a practical way," Macon said, "Cooper is earmarking a portion of the proceeds from every dose of Rochem R brand cattle vaccines sold this fall, up to Dec. 31. We don't know just what the amount of the check will be, but our goal is \$50,000." (CONT. ON PAGE 15A)

Austin - Proclaiming the state's new Agriculture Development Bond Program "open for business," Agriculture Commissioner Jim Hightower introduced Friday his appointees to the three-member Agricultural Development Board that will oversee the program.

"As far as I'm concerned, we've scored a coup," Hightower said. "We've landed one of the most successful ranchers in the state, the president of one of the oldest food processing companies in the state, not one of the most respected bankers in the state. I couldn't be happier that people of this caliber have agreed to serve. Their experience will be invaluable."

Travis County rancher/businessman Mike Levi will chair the new board. Hightower said. Levi, a founder of the Red Brogue cattle breed, is immediate past president of the American Red Brangus Association and an active member of a number of other state and national cattlemen's organizations.

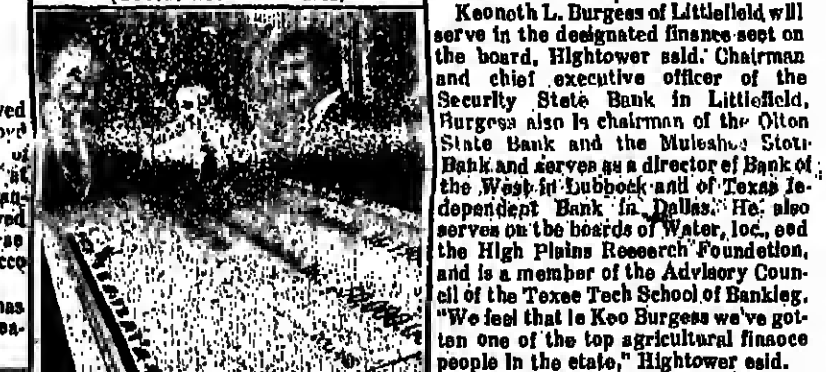

"I can't speak highly enough of Mike," Hightower said. "He's been one of the most active and articulate members of our Texas Family Farm and Ranch Advisory Committee, which keeps Gov. White and me informed about the problems of grassroots farmers and ranchers around the state. I rely heavily on him already and I'm extremely pleased that Mike has agreed to head up the Ag Development Board."

Keoneth L. Burgess of Littlefield will serve in the designated finance seat on the board, Hightower said. Chairman and chief executive officer of the Security State Bank in Littlefield, Burgess also is chairman of the Otton State Bank and the Muleshoe State Bank and serves as a director of Bank of the West in Lubbock and of Texas Independent Bank in Dallas. He also serves on the boards of Water, Inc., and the High Plains Research Foundation, and is a member of the Advisory Council of the Texas Tech School of Banking.

"We feel that Le Koo Burgess we've gotten one of the top agricultural finance people in the state," Hightower said.

Ralph E. Veleco, president of Amigos Food Co., Inc., of San Antonio, will fill the Board slot requiring food processing and marketing industry experience. Amigos Food is one of the oldest family-owned food processing operations in the state, and Veleco is past president of the Texas Food Processors Association.

The Agricultural Development Board held its first meeting last Friday (CONT. ON PAGE 15A)

During a recent visit to headquarters of the National Cattlemen's Association, J. L. (Jim) Macon (right) of Cooper Animal Health presented this big-size check facsimile to W. D. Fry (left), president of the National Cattlemen's Foundation, Inc., and W. T. (Dub) Berry, Jr., Executive Vice-President of NCA. The actual check, to be presented early in 1984, will be given to support marketing research sponsored by the NCFI.

Rocking M Salers Sale At Caldwell, Idaho, November 5

Weiser, Idaho-Rocking M Cattle Company has announced the Salers Sale-A-Brethren Sale to be held Saturday, November 5, 1983 at the O.K. Livestock Sale Pavilion in Caldwell, Idaho. Sale time is 12:00 noon. The sale celebrates 100 years in the cattle business for the

Moore family as well as 10 years in the Salers business in the rugged Snake River ranching area of Idaho. Rocking M Ranch was member number 4 in the Salers Association. Selling will be 200 head including 20 head of fullblood and purebred Salers cattle, 70 head of percentage range bulls that were range raised in the roughest country in the Snake River Canyon; 10 club calves and 100 head of bred percentage heifers.

GOOD BULLS Are No Accident!

They are bred to be this way from championship bloodlines, performance built in, and raised on a set of big, good milking mother cows.

We invite your inspection of these nine big, stout, serviceable age sons of Centennial, the 1981 Denver Champion Bull and CL 1 Domino 860 that we have consigned to the Concho Hereford Sale, October 31, 1983, in San Angelo, Texas. These are a super set of bulls for your crossbreeding or purebred needs.

More information on these bulls available on request.

Calves On Display At First Preconditioned Calf Sale Oct. 27 At Ft. Worth

You can see many of the calves as a Live Demonstration of the First Preconditioned Calf Sale at the Fort Worth Stockyards in Pen No. 131. This first Certified Preconditioned Calf Sale will be held in conjunction with the special Stocker-Feeder Sale at the Stockyards on Thursday October 27. This will be the first sale of this kind in Texas.

The Certified Preconditioning Program is being promoted by Purina and its dealers throughout the country. Cattlemen are benefiting greatly from this program in terms of up to 80 lbs. per head weight gain and a reduced mortality rate of 80 to 90%. Cattle buyers

have been paying more for the Processed calves because they are certified by the seller to be weaned and bunk-broken and the calves are veterinarian-certified to be correct in vaccinations and health practices.

Consignment to this sale are coming in from as far as Tennessee. Interest in this sale has been more than expected. Interested buyers and cattlemen are invited to go by and see these calves prior to the sale in Pen No. 131 at the Fort Worth Stockyards. If you need more information, call Guy Echols at Echols Farm Store in Richardson, TX, 214/281-8110.

In April, 1984 whips were checked at 281 miles per hour on West Washington in New Hampshire.

SALERS is one of the world's oldest breeds dating back 7,000 years to Egyptian cattle. SALERS excel in fertility, calving ease, carcass quality, and early maturity.

At the ROCKING M, we range calves our Salers heifers and do not assist births. Our bloodlines are the breed leaders in calving ease, performance, and carcass quality. They have won 23 Grand or Reserve Championships in 30 carcass shows including 8 out of 9 at National shows. At the 1983 Great Western Beef Expo, with 47 entries from 16 breeds, our pen of JET sired halfbloods was one of only two pens to index above 100 in all six traits and they did it at 14 1/2 months of age.

1st Farmer: "How did your new farm hand lose the fingers of his right hand?"
2nd Farmer: "He put them in the horse's mouth to see how many teeth the horse had."
1st Farmer: "Then what happened?"
2nd Farmer: "The horse closed his mouth to see how many fingers my farm hand had."

STAMPEDE By Jerry Peain

Americans spent \$280 billion on food last year, one fifth of all personal spending. Farmers got about 35 cents of each dollar, down sharply from 44 cents in 1972. The rest went to packagers, transporters, processors, wholesalers and retailers.

Fl. Worth Show Premium Lists Being Mailed

Fort Worth - Months of preparation began to materialize this week with the mailing of some 6,000 Premium Lists to potential exhibitors at the 1984 Southwestern Exposition and Fair Stock Show, Jan. 26 through Feb. 5, at the VIII Rogers Complex in Fort Worth.

The book, according to W. R. Watt Jr., Stock Show president/manager, lists more than 400,000 in premiums for the 88th annual livestock exposition and accompanying 22 performances of the World's Original Indoor Rodeo.

Watt noted the deadline for entries in divisions for cattle, sheep, swine, horses, donkeys, and mules is Dec. 10, while exhibitors of poultry, pigeons and rabbits have until Jan. 15 to enter.

He urged exhibitors to read the rules and other information to become ac-

quainted with changes in premiums. Arrival and show schedules are also important to note, he said.

Carrying rules and regulations from the Stock Show and individual breed association sanctioned groups, the brightly colored edition lists several new show features, livestock auctions, and, in some cases, higher premiums than the 1983 Stock Show.

A number of cattle, sheep and swine divisions will feature higher premiums, showing an overall increase of \$13,587. Higher premiums in the Polled Hereford open breeding show will make the total offering \$11,000; Santa Gertrudis open breeding show, \$2,600; Pan Division, \$6,040; breeding Swine open show, \$6,839; breeding Swine open show, \$6,824.

Also, in the Junior Livestock Division overall premiums total \$33,725, a gain from 1983. Junior Steers are up to \$27,080, Junior Heifers to \$22,305, Junior Dairy to \$8,000, Junior Breeding Sheep to \$2,769, and Junior Borrows to \$5,964.

New items include truckload classes for Hereford bulls in the Pen Division with premiums of \$1,040; a State 4-H Club show in the Dairy Goat Division;

and open Dairy Goat exhibition in addition to classic ribbon.

The Horse Show Division will have new classes. Premiums will be \$4,580. Also, some junior exhibitor classes have been designated Youth Exhibitor, whereby some young people will be receiving broad association showmanship points.

Also listed are eight cattle breeding association sponsored sales and one for Point and Quarter Horses and Donkeys and Mules. New will be an Angus Futurity, called the Cow, Clarksville, Indiana. The meeting location is across the river from Louisville, Kentucky, site of the 1983 Kentucky National Beef Show and Sale.

One of the topics to be presented to the ABA membership will be the rules and bylaws for the unification of the American Beefalo Association with the International Beefalo Breeders' Registry and the World Beefalo Association. ABA members will have the opportunity to vote on the proposal at the November 14 meeting.

American Beefalo Assn. Membership Meeting Set For November 14

Clarksville, Ind.-A General Membership Meeting of the American Beefalo Association will be held Monday, November 14, 1983. The meeting will begin at 7:30 p.m. in the Copenhagen Room of the Marriott Inn on I-65 North, Clarksville, Indiana. The meeting location is across the river from Louisville, Kentucky, site of the 1983 Kentucky National Beef Show and Sale.

One of the topics to be presented to the ABA membership will be the rules and bylaws for the unification of the American Beefalo Association with the International Beefalo Breeders' Registry and the World Beefalo Association. ABA members will have the opportunity to vote on the proposal at the November 14 meeting.

American Beefalo Assn. Show & Sale Set For November 15

Louisville, Ky.-A total of \$8,000 in cash awards will be made to the top 46 winners at the 1983 Kentucky National Beef Show to be held in conjunction with the North American International Livestock Exposition in Louisville, Ky., November 15, 1983.

There will be 16 classes for Beefalo including 6 heifer classes, a cow class, a ewe and calf class, a Beefalo bull class, 8 championship heifer classes and a champion female class. First place trophies and ribbons will be awarded in each class.

Awards will also be made to the 1983 ABA Premier Exhibitor and the 1983 ABA Premier Breeder.

The American Beefalo Association General Membership Meeting will be held November 14, 1983 at Clarksville, Ind. across the river from Louisville.

Shorthorn Steer Wins Nebraska State Fair Carcass Contest

A purebred Shorthorn steer shown by Pamela Peterson, Minden, Ne., captured top honors in the 1983 Nebraska State Fair Carcass Contest. This steer had also been the champion Shorthorn steer in the live evaluation.

Sired by the 1983 Shorthorn Sire of the Year, Deepark Leader 18th, better known as Dividend, the steer was out of a Mill Brook Ransom Y62 x daughter.

According to Dr. Jim Cooley, University of Nebraska-Lincoln, the April 1982 steer weighed 1,186 pounds live and produced a carcass weighing 773 pounds. Additional statistics on the steer included a 20 square inch rib eye; 3 inch backfat measurement; and KPH percentage of 2.0%. The steer had an average daily gain of 2.51 pounds per day, yield graded 187, and quality graded low choice.

The steer had been purchased by Miss Peterson from Trill Ranch, Ed Githuoli, Pawlana, Kan.

Angus Association members on the present state of agriculture, deprecating the prophesies of "gloom and doom" which have characterized media forecasts over the past several months. Butz challenged the group to pay close attention to the market and to be aggressive about beef to the consumer.

Also on the program were Steve Radevich, Earlham, Iowa, and Ted Price, Omaha, Nebraska. Radevich, a lifelong cattleman and a leader in the industry, spoke to the group about public relations and about marketing their breeding programs. Price, from Words and Music, Inc., conducted a short seminar on general advertising, including the concepts of name recognition, constant customer awareness, and being a consideration during critical buying moments on the part of the customer.

Robert M. Newman, Fayetteville, Tennessee, was re-elected president of the association. New members elected

morning and is ready to begin accepting applications for projects to be financed under the new program, which was created earlier this year.

The program allows Texas counties to create local corporations to issue tax-exempt bonds to make low-interest financing available to farmers and ranchers to begin processing and marketing the agricultural products they produce. Right now the state is the bonds do not obligate the state in any way. Early interest in the program, says, indicates that the new bond members will be kept busy.

Officials in three counties already have the ball rolling to create the local corporations. "Hightower said, "and we're getting word of a number of ventures that would meet the legislative requirements for this type of financing."

For instance, one rancher wants to use the financing to integrate into prepared Mexican foods. A Northeast Texas farmer wants to start a cotton gin cooperative for local farmers that can have to transport their cotton long distances and are at the mercy of other ginners. Three West Texas ranchers want to open a small retail outlet for their own beef. One West Texas farmer wants to start a winery. A couple of others want to build a facility to wash the squash they grow and beg. Some farmers in East Texas want to build a 14 million plant to compress wood chips into pellets for use as fuel. And one peanut processor, concerned that his local peanut producers are going out of business, wants to bring the producers into the ownership of the company so they can make enough to continue producing the peanuts his company needs to stay in business.

W.D. Farr, Greeley, Colo., president of NCA, said, "Initiation of our new grant program is a major step in improving marketing efficiency and making beef more competitive in the marketplace. We expect the new marketing research — which has been designated by the NCA Research Committee as a priority need — to identify problems in determining and reporting beef and cattle values."

"Our objective is to improve the entire marketing system, so that the most efficient and effective, in all phases of the cattle and beef industries, will be fully rewarded. Now is the time for all of us in the cattle industry to do our part to keep the industry healthy."

worked very well. As a matter of fact there are 48 states which allow the Governor to practice this kind of economy, and if one votes a worthy item, the law makers can always override. It has been used to effectively cut some waste from the budgets in Texas and other states. What makes the current situation look good at this time is that some of the leaders in Congress are on record as thinking it may be the only way Government Spending will ever be controlled.

If enough of these Pork Barrel budget items could be pared there would be less enthusiasm in Congress for New Texas and the beautiful part is the Congressmen would be able to go back home and brag about how he tried to cut that waste item financed but that that oratory of So-and-So to the White House just wheeled it out of pure easiness. There is a better deal than that, they might be doing it Nation a real service.

Ever thine, The Editor.

P.S. Uncle Dutch reports a news release from USA which says a two-year investigation in Cleveland and Cuyahoga County, Ohio, disclosed 18 people had illegally taken \$128,804 in food stamps. Of these 14 were county employees and four were wives of county employees. In another case a woman had latched onto \$18,184 in food stamps and other welfare money for children she no longer had custody of. Those courthouses people were caught by a simple computer cross check of welfare and state retirement files. It should be well worth it for the Govt to hire enough extra help to do more of this and save billions of dollars. Incidentally, Courthouses and City Halls all over the country could use some cleaning up. Here in our home town we have had tax employees dip into public funds and several indicted and the same happened in some of the City Halls played last

National Junior Red Angus Association Holds Annual Meeting

The National Junior Red Angus Association met on August 18 in Des Moines, Iowa for its annual meeting. Twenty-five juniors from nine states attended the meeting, which was presided over by President Leland Leachman of Billings, Montana.

Leachman announced the two 1983 Junior Red Angus Scholarship recipients: Ted Sonstegard of Montevideo, Minnesota, and Steve Neasmeier of Lanark, Illinois. Leachman then announced the 1983 Junior Red Angus Scholarship recipients: Ted Sonstegard of Montevideo, Minnesota, and Steve Neasmeier of Lanark, Illinois. Leachman then announced the 1983 Junior Red Angus Scholarship recipients: Ted Sonstegard of Montevideo, Minnesota, and Steve Neasmeier of Lanark, Illinois.

The 1982-83 officers were all re-elected for a second term: President Leland Leachman, Billings, Montana; Vice-President - Fulton Greer III, Franklin, Tennessee; and Secretary-Treasurer - Tammy James, Seersboro, Iowa.

Wean more calves with Angus cows

...reduce labor costs

The most important single factor in making a profit with beef cows is to wean a higher percentage calf crop. Research shows that Angus cows settle fast, calve with ease, and wean more calves than other beef breeds.

Fertility pays dividends. In a recent 2-year test at Louisiana State University, Angus cows had a 15% greater pregnancy rate and weaned 10% more calves than Brangus cows.

In U.S. Meat Animal Research Center tests, 99.4% of Angus heifers reached puberty at 15 months of age—53 days sooner than Herefords and far sooner than the large continental breeds.

Superior calving ease. Moreover, Angus 2-year-old heifers, as well as mature cows, had fewer calving problems regardless of the bull used. These easy-calvers recycled faster, which means they could wean a heavier calf the following year. Calving trouble is a problem no

cattle producer can afford. Five years of research at Texas A&M University, on a herd of Charolais cows, showed the average cost of calving difficulty was \$15.26 per calf weaned. The average cost of pulling a calf was \$85.50—the cost of a Cesarean section \$243.24.

Get the traits you need. Angus Herd Improvement Records (AHIR) help you take the guesswork out of female or bull selection. Angus breeders are the leaders in performance testing. They have nearly 2,000,000 AHIR records on file to identify seedstock with improved maternal traits, rate of gain, weaning weights or calving ease.

Remember too, with Angus cows there is no cancer eye, no dehorning, and no snow burned udders to add to your labor and management costs.

So join the leader. Let Angus cows help you wean more calves and lower your labor costs.

Bilingual Application Form For Agricultural Carrier Permits

Austin — A new bilingual application form has been published by the Railroad Commission to help Spanish-speaking carriers get permits to transport recently deregulated agricultural commodities.

The new permits are available under provisions of a new Commission rule that exempts from RRC-approved rates the transportation of these commodities for farmers, ranchers or cooperative organizations between points of production, processing or storage or to any point of first manufacture.

The new rule is the result of recent changes in state law by the Texas Legislature. The law says that deregulated agricultural commodities must include cotton, livestock, grain, fresh fruits, and fresh vegetables. To get one of the new permits, agricultural commodity carriers are still required to comply with the Commission's safety, vehicle registration, and insurance requirements. Agricultural permits are valid for one year throughout the state.

The new rule also requires that an agricultural carrier keep records for each shipment showing the origin and destination, identity of the shipper and receiver, and shipment weight. Previously, a carrier could get a seasonal agricultural permit from the Commission that would exempt certain commodities from Commission-approved rates. A seasonal permit was valid for 120 days and a 75-mile radius.

Williams Selects National Brangus Champions

Excellent grew as the crowd observed the exhibition of Brangus cattle at the 1983 National Show of Merit held at the Los Angeles County Fair in Pomona, CA, September 24, 1983. The fair, considered as the largest county fair in the nation, drew 66 quality Brangus sires representing seven states.

Jim Williams, VA Ranch, Hangerford, TX, served as the official for the prestigious event. As Judge Williams sifted through the black, eared cattle he found VCC Crackerjack 101N2 to name Grand Champion Brangus Bull. Crackerjack, a November 1981 son of VBR RSV Titan 236 "Tiny," is owned by Vineyard Cattle Company, Wharton, TX. Vineyard Cattle Company, Wharton, TX, is owned by Cow Creek Ranch, Marble Falls, TX, and Brangus Ranch, Fayette, ID, and Brangus Ranch, Slatersville, TX. He was also the senior champion of the bull division.

VCC Dynasty 102/N, exhibited by Vineyard Cattle Company and Truman Arnold, Texas, TX, was the winner of the reserve grand champion bull award. He too, was a VBR RSV Titan 236 son and was earlier named reserve champion senior bull.

The grand champion female of the show went to the senior champion, CCR Miss Champ 76P. The DMA Champ 563 daughter was shown by Cow Creek Ranch, Granada Land & Cattle Co., Maricopa, TX, and Scott's Holman, College Station, TX.

Mr. Williams, 850-4541, sired the reserve grand champion female Miss 34-4420P. The junior champion is

1984 Simmental Genetic Trail Leaders Named

The American Simmental Association has announced that 81 purebred Simmental bulls have been designated as Genetic Trail Leaders for 1984, an increase of five from the previous year's total of 76. Twenty-five sires qualified as trail leaders in more than one category.

"Trail Leader Recognition is the result of evaluation of 581,127 progeny performance records, representing 57,782 management units," said American Simmental Association Executive Vice President Earl B. Peterson. "Publication of comparative performance data on purebred bulls is printed in the National Simmental Sire Summary."

All Simmental bulls that meet progeny qualifying standards are automatically included in the Sire Summary, and are thus eligible for Genetic Trail Leader consideration. Sires may be named in more than one trail, provided their progeny rank in the top two percent for each trait. Those progeny traits for which leaders are listed include: Calving Ease; Weaning Weight; Yearling Weight; Carcass Value; Daughters' First Calf Weaning Weight; Just one bull, Signal, qualified in four traits earning distinction in Weaning Weight; Yearling Weight; Daughters' First Calf Weaning Weight; and Daughters' First Calf Carcass Value.

Just one bull, Signal, qualified in four traits earning distinction in Weaning Weight; Yearling Weight; Daughters' First Calf Weaning Weight; and Daughters' First Calf Carcass Value. Signal, a son of Signal, qualified in four traits earning distinction in Weaning Weight; Yearling Weight; Daughters' First Calf Weaning Weight; and Daughters' First Calf Carcass Value. Signal, a son of Signal, qualified in four traits earning distinction in Weaning Weight; Yearling Weight; Daughters' First Calf Weaning Weight; and Daughters' First Calf Carcass Value.

The new addition is slightly smaller than in 1983 because we elected to delete those bulls for whom no new progeny records had been submitted during the preceding 12 months," Peterson said.

The 1984 National Simmental Sire Summary, which will contain data on a total of 1,428 bulls, will be released later this fall. The Sire Summary is mailed free at charge to all members while non members may obtain copies by mailing a check in the amount of \$5 per copy, to the American Simmental Association, One Simmental Way, Bozeman, MT 59715.

World Championship Appaloosa Show To Be In Okla. City

The World Championship Appaloosa Show is traditionally a gathering of the best Appaloosa horses in the world. All competitors have proven their excellence by qualifying in regional competition through the national point system, so the drama runs high as World champions are made daily.

This year's event, held at the State Fairgrounds in Oklahoma City from October 31 to November 6, promises more than the usual amount of excitement and beautiful Appaloosa horses. Special championships have been added to reward outstanding senior and junior

horses, foreign horses, champions at cattle, games, western and English events. The Cowboy Hall of Fame Steuben glass trophy will again be presented to the World's Best Appaloosa.

The APHC hospitality area offers visitors a birds-eye view of the arena and features an on-line terminal connected to headquarters' computers. Registration and performance records are available to interested owners, and the computer wizardry seems to include visitors at all ages. Informative and entertaining video programs run continuously, and the latest in literature, forms and gift items are also available.

For more information, premium lists and entries, please contact the show office, 300 S. Ann Arbor, Oklahoma City, OK 73127, (405) 949-2283.

ACCORDING TO AN English clergyman there are seven social sins. They are...

1. Politics without principles.
2. Wealth without work.
3. Pleasure without conscience.
4. Knowledge without character.
5. Business without morality.
6. Science without humanity.
7. Worship without sacrifice.

Hunting On Private Lands Can Benefit Landowners, Hunters

Fort Collins, Colo. - Landowners should plan now for hunters who will be requesting access to their land this fall and winter.

"It is inevitable that hunters will ask for permission to access private land. Thinking about it ahead of time will enable landowners to avoid most conflicts and promote positive feelings between them and hunters," said Del Benson, Colorado State University Cooperative Extension Service wildlife specialist.

Benson advised landowners with agricultural operation. He reminded hunters that they are in control of the land and often are willing to share the responsibility of the land.

Most hunters respect the privilege of hunting on private lands, but some misbehave, said Benson. When that happens, landowners often deny access to everyone. He said, "That doesn't happen."

Benson said visitors should be told the rules, where they can hunt and the period of time that permission is granted (only that day, throughout the season, etc). Landowners should get the hunter's name, address, car license number and a signature. Any special rules should be noted.

"An arrowhead may be picked up with great excitement and pride. The owner may not think that the landowner wouldn't approve," said Benson. The type of incident could lead to conflict when a simple comment about the arrowhead would have prevented any misunderstanding.

Hunters also can be an asset to landowners, added Benson. Visitors can become additional eyes and ears for the landowner, finding lost cattle and trespassers. Some even may help with a piece of fence.

"Good hunters care about the land and usually are willing to help," said Benson.

The goal for both landowner and hunter should be to have respectful, responsible people on private property.

"Good outdoor users want the land to be passed on to their children," said Benson.

There are laws against trespassing, damaging property, littering and gun violations. Violators should be removed, and/or turned in to authorities, said Benson.

"Personal bonds between hunters and landowners can become quite strong," he added. "Many landowners look forward to opening day because friends arrive."

Winnings From Gambling Must Be Reported To IRS

From a tax standpoint, cash winnings from lotteries, races, games of chance, and raffles are viewed as income on the federal tax return, the Internal Revenue Service says.

Similarly, contest prize money and awards from employers are also considered as taxable income by the IRS and must be reported.

The IRS adds that property won in contests or donated by employers, such as household appliances, all-expense-paid vacations, cars must also be included in income as fair market value. Both cash and non-cash winnings are shown on Form 1040 as "Other Income."

The IRS notes that gambling losses may be deducted to the extent of the winnings if deductions are itemized.

LSU Producers' Day Program, Sale Set

Baton Rouge, La. - The Louisiana State University Department of Animal Science will hold its annual Livestock Producers' Day program and a special sale of cattle, horses, sheep and hogs on November 18.

Texas Gelbvieh Breeders Renew Association Activity

High demand for Gelbvieh cattle in the Southwest and Gulf Coast region has spurred reorganization of the Texas Gelbvieh Cattle Association (TGCA).

A progressive group of Gelbvieh breeders met in Dallas recently to develop a plan of action for the association. New officers were elected, and several activities were scheduled for the coming year.

Dr. Gonzalo Lopez, a 10-year Gelbvieh breeder from Irving, was elected president. Vice-president is Curtis Graff of Dalhart, and Gerry Sedell, Allen, will

Elected to lead the Texas Gelbvieh Cattle Association for the coming year are these four Texas cattlemen (counterclockwise, from bottom right): Dr. Gonzalo Lopez, Irving, president; Curtis Graff, Dalhart, vice-president; Howard Fontenot, Willis Point, promotion chairman; and Gerry Sedell, Allen, secretary-treasurer.

serve as secretary-treasurer. Howard Fontenot, Willis Point, will head up publicity efforts as promotion chairman.

To increase the breed's exposure in Texas, the association will sponsor Gelbvieh cattle displays in the Fort Worth and Houston livestock shows this fall. In addition, a directory listing all TGCA members will be handed out at the shows.

Another goal is to coordinate Gelbvieh bull entries in regional feed trials. These all-breed performance tests allow Gelbvieh sires to demonstrate their growth and feed efficiency advantages.

President Lopez will host a Gelbvieh Field Day at his Lee Amecena Ranch next April. Anyone interested in learning more about this breed should contact Lopez at (214) 269-8761, or any of the other officers.

All TGCA members will have their names and addresses placed in this fall's directory, and will also receive quarterly newsletters for the annual membership fee of \$25. To join, write Gerry Sedell, Rt. 1, Allen, Texas, 75002 or call (214) 727-5283.

"Strategy For Success '83" Is Theme Of TCFA Convention

Amarillo — Leaders of the nation's three major beef organizations will meet for "strategies for success" in the beef industry when they address the Texas Cattle Feeders Association Annual Convention Nov. 18-19 in San Antonio.

The convention, carrying the theme "Strategy For Success '83," will be at the Hyatt Regency Hotel along the picturesque San Antonio River and within walking distance of the Alamo. About 900 persons are expected to attend, according to Jim Peterson, TCFA convention manager.

TCFA represents over 150 feeders producing more than 20% of the nation's feed beef.

The Texas CowBelles, a leading promoter of beef, will hold its annual meeting in conjunction with the TCFA event.

Don Butler, chairman of the U.S. Meat Export Federation; Jim Mullins, chairman of the National Live Stock and Meat Board; and Dub Waldrip, president of the National Cattlemen's Association, will make up a convention panel discussing "Strategies for Cattlemen in the '80s." The panel will be moderated by Dr. L.S. "Bill" Pope, director of the department of animal science for New Mexico State University.

One of the industry's most pressing issues — lean beef — will be discussed by a panel headed by R.L. "Bob" Blas, past TCFA president and vice president of Thrane Industries. The panel will discuss problems involved in producing and marketing lean beef.

AN That Glitters Is Not Deductible

Dallas — What do the following have in common — a dredging operation to create a new front lot in a Panamanian gold claim, a limited partnership in a Florida dredging production operation, and a Pittsburgh, Pennsylvania, book publishing venture?

The answer, provided by the Internal Revenue Service, is that the losses shown by such ventures were recently ruled by a U.S. Tax Court to be ineligible as a tax deduction. In IRS terminology, each of these ventures is an abusive tax shelter — schemes in which tax deductions claimed exceed the investors' at-risk basis by use of financing arrangements without personal obligations for repayment by the taxpayers.

In each of these cases, the IRS says the investors were obligated to pay only a small portion of their total investment. Losses were assured simply by making no serious effort to realize a profit. The "investors" fall in relatively high tax brackets) then attempted to deduct the full amount of their investment as a tax loss. The deductions were disallowed by an IRS audit and have been subsequently disallowed.

It is also likely in such cases, the IRS says, that the investor will not even be allowed to deduct the money that he initially did before investing in any doubtful tax shelter. If something sounds too good to be true, it usually is.

The width of a football field is 63 and one-third yards.

TCFA President Charlie Kuntz, general manager and president of Utton Feedyards, will update the membership of 1983 TCFA activities and what can be expected in 1984.

Other speakers scheduled to address the convention include: San Antonio Mayor Henry Cisneros, James Humes, a former U.S. State Department official and speech writer for four U.S. presidents; and Dr. Ann McGee-Cooper, author of several books on creative thinking techniques.

Golf and tennis tournaments, special tours and a host of other recreational activities are also part of the convention program, said Peterson. An entertainment highlight will be a country and western show and dance by Grand Ole Opry star Leroy Van Dyke.

For further information on the TCFA convention, contact TCFA, 6601 West 1-40, Amarillo.

DRINKING TANK PROBLEM SOLVED

As well as all reservoirs and spray tank Lifetime Tank Coatings for steel plate tanks, corrugated galvanized iron tanks, and rock and concrete tanks. Thousands of these tanks of assorted sizes have been restored to be better than a new tank, not coated. Over 30 million pounds now in service since 1958. Stop all leaks, any size hole or crack. Prevent rust forever. A new tank properly coated will not be replaced in a lifetime. Anyone can apply by brush. Not a paint, the only material known that prevents seepage in basement walls. Twice the hardness of concrete. Write or call for our catalog. All orders shipped same day received. This is our 33rd year.

NEW REBOUND

Keeps calves healthy to avoid stress

Why Rebound Delivers

How You'll Profit

PNP Protected Natural Protein
PNP Protected Natural Proteins provide faster gains at lower cost. They pass the rumen to the fourth stomach which provides improved quality and quantity of protein available for fast growth. Tests show 27% better feed efficiency over soybean meal through better feed utilization.

Tests show Terramycin promotes excellent gains at less cost.

Test made by Pfizer comparing Terramycin with other popular antibiotics showed calves weighing an avg. 415 lbs. gaining 2.13 lbs./day at 6.3 lbs. feed/gain at 46.12¢ lb./gain with Terramycin. Competitive antibiotics provided less gain at 18% more cost.

Combined buffers proven most effective over standard single buffers.

Just like a person with indigestion, stressed calves need multiple buffers to treat acid build-up. The combination of Sodium Bicarbonate, Magnesium Oxide and Calcium Carbonate is most effective in controlling rumen PH.

Calves stay healthy; keep gaining through stress periods.

During the periods you expect sickness, weight loss and possible deaths, Rebound stress feed not only protects your calves, its unique protected protein formula produces as much as a 7% avg. daily gain over soybean meal. Tests showed an avg. 2.19 lb. daily gain on 236 to 430 lb. calves.

Already sick calves get turned around quick.

Rebound stress feed has higher levels of antibiotic. And, the medication is flexible so more can be fed at times of highest stress. Tests show Terramycin fed 2 grams/day gets calves healthy fast.

Excellent results at an affordable price.

By the way you'll find Rebound stress feed very price competitive. More important, your calves efficiently gain with a minimum of feed.

We make it right!

PRP Solves Special Problems With IRS

Experiencing an uncomfortable feeling akin to indigestion regarding an unresolved tax problem? If you have already tried the normal IRS remedies to solve your problem, the tax agency suggests you try its Problem Resolution Program (PRP) office.

The most common problem brought to the PRP office are complaints about missing refunds, mixed up social security numbers, incorrect billings by IRS, and situations caused by taxpayer error, the IRS says. They cautioned, however, that the Problem Resolution should not be used as a substitute for normal procedures.

Although most taxpayers will never need the services of PRP, the IRS says that taxpayers with a persistent tax problem will find PRP willing and able to help. Taxpayers can contact PRP through the IRS assistance number listed in the phone book under U.S. Government.

Washington County Fair Crowns Brahman Champions

The V8 Ranch and J. D. Hudgins, Inc., both of Hangerford, TX, received the grand champion trophies for the open Brahman show at the Washington County Fair. Judge Bob Massey of Icos, TX, looked over 190 head of Brahman cattle before selecting the champions.

Miss V8 878/2 was selected as the senior champion Brahman female before Massey placed her as the grand champion. The V8 Ranch also took the reserve grand champion award and the junior championship with their entry of Miss V8 886/2. The reserve calf championship for the Brahman females was also won by a V8 heifer, Miss V8 981/2, a summer yearling.

JDH Atari Mmaso added another championship to his name with his win for J.D. Hudgins, Inc. The ranch also took the junior champion placing with JDH Mmaso Grande 412, a March yearling.

Buying the top female at \$28,500 in the Happy Valley Ranch Red Brahman Sale, October 9 in Hallsville, Texas, was Barry Bryant of Longview. Pictured (L to R) are: Barry and DeLena Bryant and children Ronce and Kevin; Rick and Doby Reeves; and Jack and Wade Reeves of Happy Valley Ranch.

His topic centered on the demands of the consumer for today's beef product. Jim Barr of Abilene then spoke to the crowd on the adaptability of the Brahman and Brahman cross cattle in West Texas. Brenda Rinker of Burkott Estarplaza in Graham, TX discussed the basic planning for an F1 program.

A question and answer session followed the morning program. Lunch was served before beginning the afternoon session. Dave Segel of Hungerford, TX was the first speaker for the afternoon. Segel gave pointers for selecting Brahman bulls for an F1 program. Gaylon Jarigan of Mullis, TX spoke on producing the Brahman hybrid in West Texas.

The terminal cross in an F1 program was explained by Gary Stanford, Jones County Extension Agent. Vincent Matocch, ABBA Director of Association Services, outlined the ABBA's F1 Brahman hybrid certification program. Clinic sponsor John Joyce of Wharton, TX gave an overview of where the cattle business is going. A question and answer session concluded the clinic program.

Weather Conditions Affects Leskar Red Brahman Sale

The hot dry spell was reflected in the \$900 average at the Leskar Ranch Red Brahman Sale, September 18 in Poolville, TX. Fifty-five females went for \$900 average with 18 bulls bringing \$852.

Taking advantage of the bargains was Ricky Grosland of Honey Grove who took home the top sellers of the day. Grosland paid \$1800 for a three-year-old cow with June holler calf and \$1500 for another four-year-old heifer pair. Also buying in volume were Bob Head of Snyder and Joe Horen of Whit.

Stanley Stout was the auctioneer.

Gayden To Speak At Stockman's School

San Antonio — Harry P. Gayden, former executive secretary for the American Brahman Breeders Association, will be featured as an "All-Time Agricultural Great" in the International Stockman's School scheduled for January 8-18 at the San Antonio Convention Center. He was selected as the best cattle breeder for this year's award.

Gayden, a Louisiana native, joined ABBA in 1948 as the association's first executive secretary. Under his leadership, the breed's herdbook increased from 100,000 head in 1948 to 625,000 in 1974 when he retired.

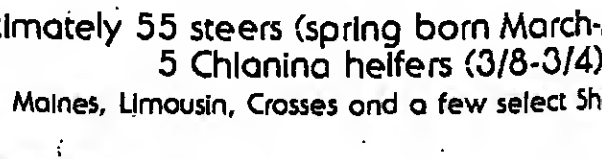

Gayden received his undergraduate degree in animal husbandry from Louisiana State University (L.S.U.) in 1929, and in 1931 was awarded an M.S. degree in dairy husbandry from the University of Minnesota.

Gayden will relate the historical points he has witnessed in the Brahman and beef cattle industries during his speaking session at the stockman's school. Enrollees in the school have the opportunity to hear from four "All-Time Greats" in the livestock industry.

Rio Grande Valley Livestock Show Expands Red Brangus Division

Carloa Guerra and Dr. Donald Grigby are pleased to announce that initial efforts in support of an American Junior Red Brangus Association have already paid dividends.

Francis R. Cooper, General Manager of the Rio Grande Valley Livestock Show, favorably recommended and the executive committee approved two new Red Brangus divisions for their annual show which will be held March 13-16, 1984. The new divisions, which are in addition to the Rio Grande Valley Junior Red Brangus Heifer division (open only to the four county area), will be as Open Junior Red Brangus Heifer division as well as an Open Junior Red Brangus Bull Division.

The two new divisions are open to students throughout the country, ages 9-20, in F.F.A. or 4-H by November 1, 1983. The exhibitor must own and care for the animal from November 1, 1983 through the March 1984 show dates. Entries are due by January 15, 1984 and must be on the official show forms signed by the exhibitor's respective county agent or vocational agricultural teacher.

Buchli, Doyle Buchli; and Jack Andrews.

Sale manager for the Bonanza II is Buddy Smith and the auctioneer is Oswald Bowie of West Point, Georgia. For catalogs or further information contact Buddy Smith with Superior Sales at Route 2, Box 174, Huntsville, TX 77440 or call 409/291-1691.

East Texas Red Brangus Average \$803

The East Texas Red Brangus Organization held their first annual October Classic Red Brangus Bull Sale on October 1 at the Rusk County Agricultural Building near Henderson, TX. Ninety five bulls averaged \$803.

Top selling bull, consigned by Thras Corner Ranch, Charla and Nancy Parker of Gilmer, TX was a January 2822 son of RDH Dan 24/8. He brought \$3800 going to Paleface Ranch of Spicewood.

Another Three Corners Ranch consignment also sold by 24/8 brought \$2000 going to Phillip Conathness from Devine. Following close behind at \$1900 were two other Three Corners consignments. One going to T L Ranch of Jackboro, the other to Jerry Lancaster of Gledewater.

Volume buyers included T L Ranch and Neil Sells of Hamptstead. Sale manager and auctioneer were Bert Rayes and Ellis Manchaca, Jr.

Red Brangus Directory Wins Publication Awards

The 1983 ARBA Membership Directory was awarded three firsts, one second, and two Certificates of Merit at the recent 6th Annual Livestock Publications Council Awards Ceremony held in Kansas City, Missouri. The Livestock Publications Council (LPC) is comprised of 87 livestock publications in the United States, Canada, and Australia. Out of the field of 83 publications represented, the 1983 ARBA Membership Directory ranked 6th in overall point standings.

1983 U.S. Beef Imports Under Voluntary Restraint

Washington — Secretary of Agriculture John Block today said the fourth quarterly estimate of U.S. meat imports for 1983 is below the level that would require quotas on imports under the Meat Import Act of 1979. Based on estimates of available supplies and certain voluntary restraint agreements, imports of beef and certain other meats should total about 1.23 billion pounds — 1 million pounds below the 1983 trigger point of 1.281 billion pounds, he said.

The liver, weighing from three to four pounds, is the heaviest organ in the human body.

Nominating Committee Announced For Red Brangus Meeting

George McAllister of San Antonio, TX was named chairman of the 1984 ARBA nominating committee responsible for presenting a list of new directors to be voted on at the 28th Annual Membership Meeting November 12. Members serving on the committee with McAllister will be Ron Jones of Graham Cattle Co. in Austin, TX and Lea McLean of McLean Ranch in Willard, MO.

Although solicitations will be accepted from the floor November 12, members are encouraged to submit nominees in advance to the committee so that they may be contacted and the names placed on the ballot.

Any active ARBA member with suggestions should contact the nominating committee. Phone numbers of committee members are: McAllister 512/788-8586; Jones 512/478-3100; McLean 417/742-3676.

PRORICH FEEDS

FROM THE HEART OF THE ROCKIES.

A Testimonial...

"This past winter I used Prorich supplemental feed on my cow herd. I was very pleased with the results. As the cattle came through the winter in better condition than ever before. The cattle shined off immediately and cycled earlier. Having used different feeds in the past I can appreciate the values of the Prorich formula."

Waldrup Hails Defeat Of Coal Slurry Pipeline Bill

Washington. — The defeat of the coal slurry pipeline bill in Congress was hailed by the president of the National Cattlemen's Assn. as a victory for agriculture.

W. J. (Dub) Waldrup said that his and other agricultural organizations were opposed to giving pipeline builders

federal eminent domain authority and to allowing the pipelines to export scarce water supplies from agricultural areas.

The U.S. House of Representatives by a vote of 182 to 285 turned down a bill granting federal eminent domain power to interstate coal pipeline companies.

"We felt that this legislation would have expropriated the rights of states to grant or withhold eminent domain and to control water," Waldrup said. "It ought to be up to the people in each state to decide whether to give a coal

Final Plans Set For Fall All Breeds Bull Sale In Sealy

Final plans have been set for the Gulf Coast All Breeds Fall Bull Sale to be held at the Part City Stockyards in Sealy, Texas on October 28, 1983 at 1:00 P.M. Over 35 breeders of purebred cattle have consigned 180 bulls, representing 14 different breeds, to the sale.

These bulls will be arriving at Part City Stockyards on Thursday evening, October 27th. On Friday, October 28th, at 1:00 P.M. the bulls will be graded using the CBCIA Grading system that was used at our spring bull sale. The judges for this sale will include cattlemen, cattle breeders, and livestock specialists. The bulls must score at least 80.0 from a possible 100 to sell in the sale on Saturday. The public is welcome to attend the grading on Friday.

Sales manager, John Jayce, states

slurry pipeline company the power of eminent domain or to allow such a company to ship water out of the state."

Agricultural organizations, in addition to the National Cattlemen's Assn. that opposed the pipeline bill were: National Farmers Union, American Agriculture Movement, American Sugar Beet Growers Assn., National Assn. of Wheat Growers, National Farmers Organizations, and National Grange.

"The success of our spring graded bull sale warranted a sale in the fall. Many commercial cattlemen in the Gulf Coast area put their bulls out on December 1st for breeding. Therefore, a fall bull sale such as this will give the cattlemen in our area a selection of bulls.

All bulls consigned to this sale will be fertility tested and guaranteed by the individual consignors. The bulls will have a test for tuberculosis and brucellosis and will be ready for shipment to any point in Texas.

Sale headquarters is the Countrywide Motel in Sealy, Texas located on IH 10 and Highway 36 (409/885-7407). For further information and catalogs contact World Sales, John Jayce, 1107 Cottondale Road, Wharton, TX 77884, AC 409/887-2212 or AC 713/842-2035 (Houston number).

Forfeited Land Sale Raises \$1,296,870

Austin — "We want the veterans of Texas to understand that paying \$100 bills to the state of Texas is a waste of money. The Veterans Land Program is a privilege and not a right," stated board member Jack Rains at the October 11 meeting of the Veterans Land Board.

Rains' statement preceded the board awarding 51 tracts of land to Texas veterans who had submitted high bids on an estate-owned land that had been previously ordered forfeited by the board on June 24 due to delinquent payments. The sealed bid sale raised an additional \$1,296,870 for the Veterans Land Program.

"It costs the taxpayers money to hunt down people who owe the program money. We walk the extra mile for every veteran but if this program is going to be run like a business, people have got to take their contract obligations here seriously," Rains commented.

September Oil, Gas Drilling Applications

Austin. — A total of 2,887 drilling applications were processed by the Railroad Commission in September. In August, 12,320 applications were processed as all and gas operators sought to avoid a \$100 drilling permit fee that went into effect on Sept. 1. The fee provides funds for plugging abandoned wells and general enforcement of state pollution prevention laws involving all and gas operations.

The September total included 173 and gas tests, 56 applications to drill new existing holes, 183 applications to plug back existing holes, and 24 applications for service (non-productive) welling applications.

ON FRIDAY, OCTOBER 28, 1983
1:00 P.M.

All bulls will be presented to a team of veterinarians who will sift them for structural soundness.

The weight-per-day-of-age will be calculated on each bull and each bull will be individually graded by a group of commercial cattlemen.

To be eligible to sell, a bull must receive a grade of at least 86 out of a possible 100.

A champion from each breed will be selected and an overall "Super" bull will be chosen from the breed champions.

A champion pen of F-1 heifers will be selected by a group of commercial cattlemen.

THE PUBLIC IS INVITED TO VIEW THE GRADING
